**EP-MS40 Specifications**

**Fold-in Ottoman**

Leg and foot massager folds neatly under the seat when not in use. The massaging ottoman is neatly hidden under the chair when not in use. Pull the release strap to unlock and push down with your foot to fully deploy the ottoman.

**EP-MS40 Sofa Chair**

Panasonic is the first company to be endorsed by the American Chiropractic Association for massage chairs.
The EP-MS40 Sofa Chair

—the latest luxury massage chair from the leader in massage replication technology for over 40 years. The EP-MS40 is designed to help you achieve therapeutic muscle relaxation and increased blood flow throughout your body to promote good health.

At only 33.5” (85 cm) tall and with a leg- and foot-massaging ottoman that folds seamlessly under the seat, it fits in any room yet sacrifices nothing in the way of style. The Panasonic EP-MS40—not only has your very own massage therapist at home.

The Technology

Benefits of Panasonic Chair Massage

- Relaxes muscles
- Stimulates acupuncture points for increased energy flow
- Temporarily increases circulation

The EP-MS40 features an ingenious, ultra-slim, 7.1” (18 cm) massage block combined with an impressive, 2.4” (6 cm) massage-head range. This enables slim, contemporary styling while delivering a thorough, robust and invigorating massage.

Compact Design—Big Massage Capability

The EP-MS40 automatically adjusts to the height of the person seated—so whether you’re tall or petite, you’ll get a centered, comfortable massage.

Acupoints

You have approximately 350 acupoints in your body—nearly 100 in your back and neck alone. This is why our chair simulates various massage techniques to target acupoints, resulting in energizing therapy.

4 Pre-set Programs

• Full Massage—Let your body fully relax and enjoy a fifteen-minute full-body massage from the neck to the bottom of the feet.
• Mini Massage—An eight-minute version of the Full Massage—perfect for a quicker, refreshing massage.
• Relaxation Mode—A softer, more relaxing massage featuring gentle rubbing. (15 min.)
• Variety Mode—Features intermittent intervals of soft and more intense massage techniques for a relaxing yet invigorating massage. (15 min.)

2 Manual Programs

• Targeted Massage—Choose a massage concentrating on one of two areas of the back: neck and shoulders or lower back and hips.
• Pinpoint Massage—A six-phase progressive massage which features kneading, compression, soft massage, tapping with kneading and tapping with compression.

Foot and Calf Massage

Stimulating, invigorating massage for the calves and soles of the feet. Select from three intensity levels.

Intensity Control Adjustment

Both the Pre-Program and Manual Modes feature massage intensity control. So you can adjust massage intensity depending on your mood—soft and gentle for ultimate relaxation or more intense, invigorating massage that stimulates blood flow and leaves you feeling refreshed.

Air Ottoman System

The EP-MS40 features a 10 airbag circulation system for a more complete, contoured lower body massage including:

- Calves—kneading and loosening of the shins and calf muscles.
- Feet—upward pressure is applied using four airbags for ultimate relief.

Automatic Adjustment

The EP-MS40 automatically adjusts to the height of the person seated—so whether you’re tall or petite, you’ll get a centered, comfortable massage.

Compact Design—Big Massage Capability

The EP-MS40 features an ingenious, ultra-slim, 7.1” (18 cm) massage block combined with an impressive, 2.4” (6 cm) massage-head range. This enables slim, contemporary styling while delivering a thorough, robust and invigorating massage.
